

ZipRight®

RESEALABLE ZIPPER

Specializing in custom-made zippers designed for your specific application using profile dies which are cut on our in-house wire EDM equipment and manufactured on our state-of-the-art profile extruders.

DOUBLE ZIPPERS

Our proven design offers extra assurance your package is securely closed. Available in double-profile single-track, and double profile double-track for liquid-tight protection in the toughest applications.

STAND-UP POUCH ZIPPERS

Designed for use on all pre-made and stand-up pouches. Air and liquid-tight with superior internal opening force. Compatible with all stand-up pouch machines.

SUPER-STRING ZIPPERS

Low cost zipper compatible with most in-line zipper units offers easy-to-crush material for faster cycle speeds and improved side-seal appearance and performance.

INNO-LOK® ZIPPERS

Liquid and air-tight zipper designed specifically for use by Inno-Lok® pre-applied zipper applicator equipment.

HORIZONTAL HFFS ZIPPERS

Economical single-flange zipper for use on all HFFS equipment designed to maintain maximum product freshness and easy clean-out of profile closure.

LIQUID, AIR & VACUUM-TIGHT ZIPPERS

Super high-integrity zipper for all barrier applications with extraordinary internal opening force, yet easy to open from the outside.

✓ Many PPE Zippers available for snack food barrier packages
 ✓ Spool return program available, too!
